

How to Set Up the Viper 4 Guidance Screen

Within a job, select the **Screen Layout** button located on the bottom middle of the guidance screen.

It will bring up the following options:

Provides a 3D guidance view of the coverage area. Widgets are placed on top of this screen.

3D View

Field Review

Provides a bird's eye view of the coverage map. Allows users to see the total area within a field boundary by pressing within the boundary. Also provides rate information for Rx maps when pressing on the different rate zones. Widgets can be placed on this screen.

Widget View

Provides a blank screen for placing multiple widgets. Allows users to place more widgets than usual when using the 3D Guidance view (widgets will not cover up the coverage map). Allows access to the 3D Guidance widget (miniature guidance view widget).

Provides access to web browsing through an available internet / data connection (via a Slingshot Field Hub).

Web Browser

The screenshot shows a web browser window with the address bar containing `http://www.ravenhelp.com/`. The browser's address bar includes navigation arrows and a search icon. Below the address bar, there is a navigation menu with links for [Customer Login](#), [Dealer Home](#), [Find a Dealer](#), [Ask an Expert](#), and [RavenPrecision.com](#), along with a search box labeled "Search this site".

The main content area of the website features the "RAVEN HELP .com" logo and a navigation bar with links for [Product Support](#), [Product Documentation](#), [Software Updates](#), [Product Registration](#), [Knowledgebase Articles](#), and [Product Service & Repair](#). Social media icons for Facebook, Twitter, and Google+ are also present.

The main heading reads "We're here to help." Below this, there are several sections:

- Service Manuals & Documents**: Raven provides over 1,100 product manuals and technical documents online for free. [Browse product manuals](#)
- Knowledgebase Articles**: Our Knowledgebase is a searchable library containing information for Raven technology. [Find out more](#)
- Software Updates**: Keep your Raven product up-to-date with the latest features and services, download a comprehensive list of current software versions, and sign up to receive email notifications when new software becomes available. [Check for Software](#)
- Video Tutorials**: Watch tutorials on our YouTube channel to learn to install and set-up Raven technology. [Go to our channel](#)
- Ask an Expert**: For individual assistance, ask a Raven Expert! Simply fill out our form and a Raven Technical Service Specialist will contact you soon. [Contact an Expert](#)

On the right side of the page, there are several featured sections:

- ACTIVATION KEY REQUEST** with a right-pointing arrow.
- SOFTWARE UPDATES**: LATEST: CAN-System ver: 11.0, 07/10/15. [GO TO UPDATE PAGE](#)
- CALCULATORS** with a right-pointing arrow.
- INTERACTIVE TROUBLESHOOTING GUIDE**: An interactive guide for

The browser's taskbar at the bottom shows a taskbar with a Start button, a few application icons, and a system tray with a clock and a network icon.

Customizing Screen View Layouts

Adding/Editing Screen Layouts

Select the following screen icon:

Layouts can be customized for all screen views except for the Web Browser. Navigate to the screen layouts for each view type by swiping your finger across the screen.

The Default and Service screen layouts cannot be edited, but they can be copied. After copying the layout, the copy can then be edited.

Use the buttons in the bottom right to modify screen layouts.

Delete

Copy

Add

Adding Widgets

After selecting the Edit button for a screen layout, select the **Add Widget** icon on the screen to go to the Widget Library.

Navigate the Widget Library by swiping your finger across the screen to locate any desired widgets to add to the screen layout.

Press and hold on the widget until it appears on the guidance screen. If you continue holding on the widget, you can drag it anywhere on the screen. Press and hold on it again if you wish to move it to a different location.

A single tap on the widget will bring up a trash can icon in the upper corner for removing the widget from the screen.

For more information on the features of each widget along with how to control them, refer to the [Raven OS Widget Glossary](#).

When finished, exit the Widget Editing and Screen Layout Editing modes.
